Program Requirements

Microsoft Teams

Sign into your Student Ambassadors Teams account at least once a month to engage with other Student Ambassadors and stay informed of important updates and new content that you can utilize to help skill your community.

Learning Paths on Microsoft Learn

Complete a [Microsoft Learn](#) Learning Path to grow your skillset in topics that you're passionate about to share your knowledge, skills, and passion for technology with your peers in your community. A Learning Path must be completed within four months (120 days) of onboarding to remain a Microsoft Learn Student Ambassador. Complete at least one Learning Path every four months (120 days) thereafter.

Microsoft Learn accounts must be opened using your Student Ambassadors email. Linking (aka merging) your Student Ambassadors Learn account to a Learn account opened under another email, will not satisfy this requirement. For more instructions on setting up your Student Ambassadors Learn profile review the [SA Learn Profile Set Up](#) document.

Additionally, linking (aka merging) your Student Ambassadors Learn account to a Learn account opened under another email will break the connection between the Student Ambassadors platform and the Learn platform for all Learn related activity.

Successful first-time completion of this requirement will advance your milestone from New Student Ambassador to Alpha Student Ambassador.

Alpha milestone advancement is automated and can take 2-3 weeks from the time you completed the learning path to the time your Alpha benefits are fully activated.

How do I complete a Learning Path?

If you are unsure how to create a learning path, please follow these steps:

- Go to Microsoft Learn
- In the top right corner, Sign In using your @studentambassadors.com account
- Select your Role from the filter drop down menu
- Select your Level from the filter drop down menu
- Click Learning Path from the Types drop down menu
- Select the learning path of your choice
- Click Start

Special note about Leagues and Learning Paths

To help you get started in learning the technologies and fundamentals associated with a particular League, we've selected several core learning paths that you should focus on.

A detailed OneNote for recommended League Learning Paths is saved on the Program Information team -> Leagues Overview channel -> League Learning Paths tab.

Each League's specific learning path list is saved on a tab in the Leagues channel on the Community team.

Technical Onboarding

Complete your Technical Onboarding in Teams to grow your skillset in important technologies, including Azure, Visual Studio Code, and GitHub. Completion of Technical Onboarding is required for advancement to the Beta milestone.

Student Ambassadors Events (Option 1 for Beta Advancement)

Plan, host, and submit your first Student Ambassadors event within 1 year of program acceptance. Complete additional events at least once per 365 days.

Successful first-time completion of this requirement will advance your milestone from Alpha Student Ambassador to Beta Student Ambassador.

Details about how to add your event to the Student Ambassadors website and submit it to the Community Program Managers for review can be found HERE.

Guidance about how to plan and prepare for your event can be found in the Hosting Events 101 resource document HERE.

Special note about Events during Covid-19.

Until further notice, all Student Ambassador events should be held virtually. In-person events are not permitted during Covid-19.

Please see the Hosting Events 101 resource document for details on current event qualification criteria.

Participate in League Projects (Option 2 for Beta Advancement)

Actively participate in a quarterly [Social Impact League Project](#) to solve problems you care about, boost your resume with experience working on projects and working with a team, and enable you to meet and engage with others in small groups.

All Hands Calls

Attend one All Hands call, or watch the call recording, at least once every 90 days. Call recordings are available within 48 hours of call completion and are available [here](#).

League Calls

Attend one League call, or watch the call recording, at least once every 90 days. Call recordings are available within 48 hours of call completion and are available [here](#).

Extra Credit Club Calls

Attend one Extra Credit Club call, or watch the call recording, at least once every 90 days. Call recordings are available within 48 hours of call completion and are available [here](#).
